

# Worldwide Coverage Map

Globalstar connects you to the people and information that matter most from virtually anywhere in over 120 countries around the world. Now, wherever life takes you, you'll have the benefit of reliable voice and data communications.

**NEW! Enhanced Alaska Coverage:**

Announcing enhanced service coverage in Alaska and the Yukon. A new Globalstar gateway in Wasilla, Alaska, serving these areas began operation on June 21, 2006, and is another major milestone in our continuous efforts to keep you in touch when you go further and do more.

**Globalstar Gateway**

**Primary Globalstar Service Area**

**Extended Globalstar Service Area**  
(Customers may have single satellite coverage and experience a weaker signal)

**Fringe Globalstar Service Area**  
(Customers may experience weak or sporadic signals)

**Globalstar Service Area currently unavailable to North American Roamers**

Calls may vary. Map denotes coverage for satellite two-way voice and duplex data only. Because of satellite outages customers may experience difficulty connecting or sustaining longer calls at certain times in certain specific locations through 2009

**Note:** The map above provides a forecast of service quality for Voice and Direct Dialup Data calls only. Airtime charges may vary depending on call origination and destination locations. Actual coverage may vary because of gateway deployment, local licensing and other factors. Globalstar service is a satellite radio technology subject to transmission limitations caused by type of terrain, service area limits, customer equipment use and other variable conditions. Contact Customer Service at 800-294-6070 to obtain details on roaming and service availability prior to traveling.
